## **BOK KAI PARADE**

On March 1st, ten Yuba Sutter Amateur Radio Club members volunteered their time to assist in the 145<sup>th</sup> running of the Bok Kai Parade in Marysville. This was the year of the Snake.

YSARC provided organization, direction and control to more than 55 parade participants to insure smooth and orderly staging and entrance into the parade route. All of our volunteers were

very well prepared and performed flawlessly. What a great group work with!! The weather was perfect and the Parade Committee was very organized, so everyone had a great time representing YSARC in our community. John Lim (Festival Director) and Heather Thompson (Parade coordinator) asked that we make this event part of our annual schedule.

Club volunteers included: Chris KK6VZD, Bud KK1BUD, Paul W6PNH, Steve KN6IJD, Matthew KN6WNR, Daniel N6APX, Curtis KF6VFP, and newcomers this year, Joe AK6JN, Wes WB6SWW and Devon N0DVE.

After the parade many of us met for lunch and comradery at Frosty's Chill and Grill, a fifties throwback hamburger joint in Marysville. It was great to visit with friends and share stories about the parade, ham radio, and life in general.

Thank you very much to all you guys and gals for a job well done!!!

## VE TEST SESSION

At the last VE session two technician exams were given. Congratulations to Daniel Bay (KO6IKE) and Henry Graves (KO6IJP) on obtaining their technician license.

The next VE session will be Sat., May 3rd at 715 King Ave., Yuba City at 9:00 A.M. VE's are needed to administer the exam. The elements for Technician, General, and Extra class will be offered.

The exam requires two forms of ID. At least one of them must be a picture ID. A fee of \$15.00 is required. **Please Note: You must have a FCC Federal Registration Number (FRN) to take an exam and for any transactions with the FCC. You will need this number for**

**the forms you'll complete. You will not be allowed to take the exam without this number. A FRN can be obtained at:**

<https://www.fcc.gov/licensing-databases/commission-registration-system-fcc>

A calculator may be used as long as it has had all of its memories cleared and there are no built in or preprogrammed formulas.

Upgrades to a higher class also require two forms of ID. At least one of them must be a picture ID. Also, bring your license and a photocopy of the license.

If you take an exam and pass, you can take the next higher-class exam at no additional cost.

If you do not pass and wish to try again an additional fee will be required.

Licensing fees will be the responsibility of the applicant regardless of filing method and must be paid within 10 calendar days of FCC's receipt of the application. For applications filed by a VEC, the period does not begin until the application is received by the Commission, a ULS file number assigned, and an email sent by the FCC directly to the applicant."

VECs and Volunteer Examiner (VE) teams will not collect the \$35 fee at license exam sessions. New and upgrade candidates at an exam session will continue to pay the \$15 exam session fee to the ARRL VE team as usual, and pay the new, \$35 application fee directly to the FCC by using the CORES FRN Registration system.

When the FCC receives the examination information from the VEC, it will email a link with payment instructions to each successful candidate who then will have 10 calendar days from the date of the email to pay. After the fee is paid and the FCC has processed an application, examinees will receive a second email from the FCC with a link to their official license or explanation of other action. The link will be good for 30 days

Good luck to everyone taking exams!
